Getting started

POER300
Key Features & Settings

Get more from every drive with your POER300

Be ready for the road ahead with this quick reference guide.

For full info, head to **gwmcars.co.uk/models/poer300/owners**

1

More control

Starting & Driving

Thanks to keyless entry, simply press the button on the door handle to unlock. To start, press the Start/Stop button while your foot's on the brake. The POER300 remembers your last drive mode (Eco, Normal, Sport), so you're always good to go.

To switch off, stop the vehicle, shift to Park and press Start/Stop again.

2

More muscle

Power & 4WD capability

Powered by a 2.4L turbo diesel engine, the POER300 delivers 135kW (183.5 horsepower) and 480Nm of torque (354 lb/ft), making it well-suited for towing, loading, and heading off-road.

For tougher terrain, switch to 4WD Low and engage the rear differential lock. These controls are located on the centre console and should only be used for serious conditions like loose gravel, steep inclines, and deep mud.

3

More confidence

Towing & Load Handling

Rated to tow up to 3.5 tonnes (braked), the POER300 makes light work of heavy loads. Using a tow hitch, align with help from your reversing camera and dynamic guidelines.

4

More tech

Infotainment & Connectivity

The 12.3" touchscreen puts navigation, media, settings and more at your fingertips. Tap to select, swipe to scroll, and press the Home icon (top left) to return to the main menu.

Apple CarPlay® and Android Auto™ are built in too. Just plug in via USB and follow the prompts. Wireless charging is also available on select models (simply place your phone on the pad to power up).

There's also a separate USB port just for dashcams, so your phone charger port stays free.

5

More hands-free

Voice Command

Using the onboard voice assistant just say "Hello GWM" and speak naturally to control key functions, while keeping your hands on the wheel. With Voice Command you can:

- Turn on the AC
- Volume up/down
- Go to homepage
- Next/previous track

You'll hear a beep when it's ready to listen, and on-screen confirmation lets you know your command has been received.

6

More visibility

Screens & Driver information

Your POER300 gives you two key displays to keep things simple and always in sight.

The centre touchscreen handles your navigation, media, camera views and vehicle settings – all in one place.

Behind the wheel, the digital driver display shows your speed, trip data, safety alerts and more. Use the steering wheel buttons to scroll through, without ever taking your hands off the wheel.

7

More safety

Advanced Driver Assistance Systems (ADAS)

Your POER300 comes with a full suite of safety tech for peace of mind on every journey. These include:

- Adaptive Cruise Control
- Lane Keep Assist
- Blind Spot Monitoring
- Rear Cross Traffic Alert

To adjust your preferences, tap the vehicle icon on the Home screen and head to Intelligent Driving. You can fine-tune braking response, steering assist and more.
